WORK EXPERIENCE

ARDENT COMPUTECH PVT. LTD.   2025
Web Development with MERN Training
- Developed a **responsive authentication page** using the **MERN stack**, implementing secure user login and registration features.
- Integrated **JWT** for token-based authentication and **bcrypt** for password hashing, ensuring secure user data handling.

PROJECTS

ADDABAZZ – FULL-STACK SOCIAL MEDIA WEB APP   GitHub Link 🔗

- AddaBazz is a dynamic mini social media platform built with the MERN stack, offering real-time messaging, post interactions, and profile management — all wrapped in a sleek, responsive UI. With TailwindCSS, Framer Motion, and React Bits, AddaBazz delivers a modern, animated, and engaging user experience across devices.

FUNDPAY – FULL-STACK FUNDING WEB APP   GitHub Link 🔗
- FundPay is a secure, full-stack fundraising web app designed for effortless donations and campaign management. Built with the MERN stack, it supports user/admin authentication, real-time payment verification, campaign creation, and automatic receipt generation — all within a modern, responsive interface.

MATERIALMASTER – FULL-STACK DOCUMENTS TOOL   GitHub Link 🔗
- Material Master is a sleek and responsive web app for handling all your PDF needs. From merging and compressing PDFs to converting between Word, JPG, and PDF formats — it offers fast, user-friendly tools in one place.
